1. Accounting policies

Installation revenue is recognised by stage of completion; maintenance and monitoring revenue over the service period. The closing exchange rate at 31 March 2026 was €1 = £0.8455. The average rate from acquisition was €1 = £0.8512.

2. Prior-year adjustment

Installation revenue had been recognised ahead of stage of completion. FY2025 revenue as first reported of £52,400k is reduced by £750k to £51,650k; associated cost of sales falls by £340k. Operating profit falls by £410k from £4,960k to £4,550k. The £103k tax credit reduces the retained earnings adjustment to £307k. Comparatives are restated. The FY2025 contract costs of £340k had been released to cost of sales with the premature revenue and were deferred by the correction. They were released in FY2026, when the management accounts also recorded those costs, so no additional FY2026 audit adjustment is needed for them. Costs on the contracts affected by the March 2026 cut-off were expensed as incurred and remain expensed; the FY2026 revenue correction therefore has no cost effect.

3. Operating profit

GBP thousands	FY2026
EBITDA before exceptional items	8,090
Depreciation	1,880
Amortisation of acquired intangibles	410
Exceptional acquisition costs	170
Operating profit	5,630

4. Acquisition

On 1 July 2025 the group acquired Kilcarrow Fire Protection Limited. Cash of £8,280k (€9.6m) was paid on completion. Contingent consideration is calculated on Kilcarrow’s EBITDA for the year ending 31 March 2027. The directors’ estimate at 31 March 2026 is included within accruals of £4,120k in total; contingent consideration amount: [redacted for the data room].

5. Provisions

A provision of £210k was held at 31 March 2026 in respect of Ardnacree Developments Ltd’s claim against Kilcarrow. The directors dispute the claim and have provided their best estimate of the settlement and associated costs.

6. Pensions

The group operates defined contribution arrangements only. Contributions are expensed as employees render service.
